Come Together

A little child looking up at the sky
At night beneath a red sky, through my eyes,
Some bright idea and then a lift back home
So-o sweet dreams and come together in...love

Come together, hoo-ome
Come together, love

Can't believe my
"We're walking home" you laugh
In the name of fairness
And all of the things in the skies

Come together, we're Hoo-ome
Come together, in love

Through the pass at Rasta
They're closing
Love never fails
Love never fails, pink Sky

Come together, hoo-ome
Come together, home.....
